

NEWS RELEASE
POWER STATION LLC EXPANDS SALES FORCE

BREA, Calif., Nov 30/PRNewswire/-Power Station LLC

Power Station LLC announced that William Rathert has joined the Company to lead sales in all aviation markets, principally to secure contracts with airport authorities and airline companies for PowerPort placement. Mr. Rathert is a seasoned veteran of aviation-related enterprises, most recently as a consulting executive with Sabre Airline Solutions, a unit of Sabre Holdings Corporation (NYSE: “TSG”), after Sabre acquired the Keihl Hendrickson Group. For more than 20 years, he has consulted to airlines and to airports ranging from large hubs to regional reliever airfields, advising dozens of clients through all stages of air service development and financial concerns. Bill’s experience extends to advising several state aviation departments, his co-founding of the popular “Jumpstart” program for the Airports Council International and a variety of other appointments. He is a frequent speaker on revenue generation strategies and air service development to the Airports Council International, the American Association of Airport Executives, the World ACI Fund, Florida Airports Council, and has served as a Boeing 737 captain for Continental Airlines and People Express.

Mr. Rathert’s broad management and consulting experience in the airline and aviation industries will provide a vital link to airport decision makers, accelerating the PowerPort placement process. His well-developed expertise in new business development, project management, marketing, and strategic planning will add significant depth to Power Station’s executive sales ranks.

In a recent interview with Henry Mauriss, chairman of Power Station, said “We never seriously considered another candidate for this role once we encountered Bill. He is the ideal and rare blend of technical, marketing and management skills, coupled with depth of relationship in both the airport and airline arenas. We’re delighted to have him aboard, and look for great things to come”.

Power Station LLC is a consumer product design and service company which has developed the PowerPort for installation at airports and other strategic sites. The PowerPort delivers a full suite of services including a convenient means of charging laptop computers, wireless WebPads for use in accessing the Internet, Wi-Fi Internet access for wireless users, ChargePads for use as portable batteries for laptops, walk-up power and Internet access, and business center management.
