

NEWS RELEASE
POWERPORT BUSINESS CENTER OPENS
AT JACKSONVILLE INTERNATIONAL

BREA, Calif., June 13/PRNewswire/-Power Station LLC

Power Station LLC and Jacksonville International Airport are pleased to announce the grand opening of the latest PowerPort Business Center. The 24/7 Center was officially opened for business Friday June 10. Conveniently located in the post-security courtyard and easily accessible from all three terminals, the Jacksonville PowerPort Business Center features eight full-service, fully automated stations, each of which provide computers, Internet access, telephone, printing and an Ethernet port for use with a customer's own equipment. The Center is also equipped with a high-speed color printer, full fax/copy capabilities, and will soon offer automated retail vending of various electronic and business services items.

More information can be found on the PowerPort website at <http://www.powerports.com/jax/>.

Matt Buscher, President of Power Station, who presided over the new installation said: "We are very pleased to continue this automated business center concept, and with how well the traveling public has embraced it. The PowerPort Business Center integrates perfectly with the airport's commitment to expansion and providing leading-edge passenger conveniences".

Jacksonville International Airport selected PowerPort in keeping with its embrace of higher forms of technology, including a parking garage that eases congestion with sensors and electronic signs to guide visitors directly to empty spaces. Adam Thomas, who manages properties, facilities and new business development for JIA, said: "we are excited about the PowerPort brand and the Business Center, and look for it to flourish in our new terminal. The full automation and technical abilities are well suited to JIA"
